

FOOD FILM

FSSC 22000 food safety accredited.

The Food Safety Management System (FSMS) at PLASTIC PACKAGING is planned, implemented, controlled, and improved, considering the context of the organization as a set of interrelated processes in compliance with the requirements of the international standard ISO 22000:2018.

All food contact products are certified according to relevant European Union standards and migration tests.

- ✓ Preserves food & maintains freshness
