# BUBBLEWRAP

Why use bubble wraps? Simply because it can give full protection to your items against any impact. Since it has air-filled bubbles, it won't allow any pressure to affect your items directly. Besides, the bubble wrap's cushioning effect takes away the pressure quickly. If you want to protect your packages from vibration and shocks, use multiple layers of bubble wrap.

**SIZES AVAILABLE**  
1200mm x 100m  
600mm x 100m  
300mm x 100m
