ALL CARE™ RANGE FOOD-GRADE

Professional Chemical Solutions For Food-grade Industries

SA Polichem manufactures and supplies high-performance food-grade chemical solutions developed for demanding hygiene-critical environments. From food processing facilities and commercial kitchens to hospitality, retail, and sanitation applications, our products are formulated for reliability, efficiency, and consistent results.

Built to support strict hygiene standards, the ALL CARE™ range delivers trusted cleaning, sanitising, disinfecting, and maintenance solutions for professional environments.

SA  OFFICIAL DISTRIBUTOR FOR
POLICHEM
KHOMAS, WINDHOEK

Food-grade approved cleaning & sanitising solutions you can rely on

The SA Polichem ALL CARE™ Range is developed for hygiene-sensitive environments where cleanliness, safety, and performance are essential. From food processing facilities and commercial kitchens to hospitality environments and sanitation applications, our products are formulated to deliver reliable cleaning and disinfecting performance.

The range includes powerful degreasers, sanitisers, disinfectants, manual and automatic dishwashing solutions, oven cleaners, hand soaps, and specialised hygiene products designed for demanding food-grade environments.

Manufactured under strict quality control processes, ALL CARE™ products help businesses maintain hygiene standards, operational efficiency, and safe working environments.

SA Polichem operates under an ISO 9001:2015 certified Quality Management System, ensuring strict quality control, consistent manufacturing standards, and reliable product performance.

GP Cleaner/Degreaser

Powerful Food-grade Cleaning & Degreasing Solutions

Designed for demanding food preparation and processing environments, the ALL CARE™ degreasing range effectively removes oils, fats, grease, and heavy contamination while remaining suitable for food-grade applications. Ideal for kitchens, processing facilities, equipment cleaning, and general sanitation.

Degreaser

Product Name	Description	Pack Size	Product Code
--------------	-------------	-----------	--------------

ALL CARE™ ALL PURPOSE CLEANER

GENERAL MEDIUM DUTY DEGREASER

Is a water-based degreaser to dissolve stubborn oil and grease from most surfaces, even porous ones, yet still rinse off easily. It is non-caustic and therefore completely safe for use on all surfaces, including aluminium. Unfragranced, suitable for use in the food industry applications. Non-corrosive. Safe for rubber seals and painted surfaces if diluted. For cleaning of food processing equipment and hard surfaces in food processing plants. Can be used manually, through high pressure washer/foaming equipment. Effective in hard and soft water areas. Do not mix with incompatible substances such as QAC disinfectants.

1 L	ACAPC0001
12 x 1 L	ACAPC12001
1 L -Spray Empty	ACAPCS0001PDE

4 x 5 L	ACAPC40005
25 L	ACAPC0025
200 L	ACAPC0200
1000 L	ACAPC1000

Active Ingredient: 2-butoxyethanol - 2-4%.

Tested Against: SANS 1828 (Clause 4.1.4)
Halaal certified: Certificate Reference no: GP/CT/0524/135

DILUTIONS:

- LIGHT DUTY: 1:50
- MEDIUM DUTY: 1:20
- HEAVY DUTY: USE NEAT

ALL CARE™ GREASOLVE

MULTI PURPOSE HEAVY DUTY DEGREASER

Is a water-based degreaser with blended solvents to dissolve stubborn oil and grease from most surfaces. Penetrates porous surfaces, rinses off easily. It is non-caustic, completely safe for use on all surfaces, including aluminium. Unfragranced, suitable for use in the food industry. Works equally well in both hard and soft water areas. Do not mix with other chemicals. For industrial/household ovens, engines, machines, stains, ink, grease, oil, blood stains, general household & kitchen duties, floors & walls, laundry pre-wash. Suitable for high pressure cleaning.

FOOD SAFETY TIP

Always sanitise food contact surfaces after cleaning to reduce cross-contamination risks.

Sanitiser/Cleaner

Hygiene Solutions For High-Risk Food Environments

Effective sanitation is essential in food processing environments. The ALL CARE™ sanitiser and cleaner range is formulated to help reduce contamination risks while maintaining clean, hygienic surfaces, equipment, and preparation areas.

Sanitiser/Cleaner

Product Name	Description	Pack Size	Product Code
--------------	-------------	-----------	--------------

ALL CARE™ ACTISAN

CHLORINE BASED DETERGENT SANITISER

This is a 4-in-1 disinfectant, bleaching agent, deodoriser and degreaser. A chlorine-based detergent /sanitiser. Unfragranced and ideal for use in the food industry, abattoirs, butcheries, laundries and vehicles transporting foods. Also suitable as a bleaching /whitening agent for white laundry (not colours). Very effective as a drain cleaner disinfectant in meat, poultry, fishery and any other food manufacturing facility. Suitable for soaking, bucket & mop, spray & wipe or use through foaming gun.

Active Ingredient: Sodium Hypochlorite 38-44%

Tested Bactericidal Efficacy:

5 Minutes contact time at 1:200 kills 99.999% of P. aeruginosa, E. coli, S. aureus & E. hirae, Listeria monocytogenes.

1 L	ACACT0001

--------------	-------------	-----------	--------------

ALL CARE™ POLICID

ACID DESCALER

Policid can be used for the removal of mineral scale and oxidation deposits on equipment and assisting in the removal of corrosion within food industry plants. Policid can also be used for acid washing and descaling of equipment in a food and beverage environment. An acid descaler that improves sanitation of surfaces and equipment and rinses. Product can be used freely with no streaking or smearing. Applied via foaming system; pressurised water supply fitted with a post pump chemical injector and compressed air supply or to be used by applying it manually using a bucket.

Safe for use in the food industry.

Active Ingredient: Phosphoric Acid

Concentration of 2-5% with a contact time of 5-10 min.

Concentration of 2-5% for soaking stainless-steel pipes and fittings.

ALL CARE™ HEAVY DUTY OVEN & GRILL

HEAVY DUTY OVEN CLEANER

Oven & Grill is an effective heavy-duty caustic based liquid which will break down fatty deposits and contains wetting agents to enable it to penetrate porous surfaces and be effective, yet it still rinses off easily. Suitable for breaking down baked-on grease and carbon. It is unfragranced and therefore suitable for use in all food industry applications. Oven & Grill will work on all residues and surfaces but is more effective if both are warmed and recently soiled. Suitable for use in all industrial oven & grills, burners & cooking surfaces where there is a build-up of grease, grime and baked on food spills. High foaming product and should be applied through a spray bottle with a foaming nozzle to reduce high alkaline vapour in the air.

WHY CHOOSE SA POLICHEM

Trusted Chemical Solutions for Food-Grade Industries

SA Polichem is a South African manufacturer and supplier of professional food-grade chemical solutions developed to meet the strict hygiene and sanitation demands of the food processing, catering, and commercial cleaning industries. Our products are formulated with a strong focus on performance, reliability, and practical application across food preparation areas, production facilities, kitchens, abattoirs, and hygiene-critical environments.

Through continuous product development and strict quality control processes, SA Polichem delivers dependable cleaning, sanitising, and disinfecting solutions that help businesses maintain high hygiene standards, operational efficiency, and safe working environments.

ISO 9001:2015 Certified Manufacturing

SA Polichem operates under an ISO 9001:2015 Quality Management System, ensuring consistent manufacturing standards, controlled processes, and reliable product quality.

Consistent Quality & Product Performance

Every formulation is developed to deliver reliable cleaning, sanitising, disinfecting, and maintenance performance across a wide range of food-grade and hygiene-sensitive applications.

Solutions Designed for Food-Grade Environments

Our products are engineered to perform in demanding environments where hygiene, contamination control, food safety, and heavy-duty cleaning are part of daily operations.

Nationwide Distribution

SA Polichem products are supplied across South Africa, ensuring consistent product availability and reliable supply to distributors, businesses, and commercial facilities.

Technical Product Expertise

Our team provides industry knowledge and product guidance to help customers select the correct cleaning, hygiene, and sanitation solutions for their operational requirements.

INDUSTRIES WE SERVE

Chemical Solutions Supporting a Wide Range of Food-Grade Applications

The SA Polichem ALL CARE™ range is developed to support hygiene-critical industries where cleanliness, sanitation, and operational efficiency are essential. From food production facilities and commercial kitchens to retail, and healthcare environments, our products are formulated to deliver dependable cleaning, disinfecting, and sanitising performance in demanding daily operations.

Designed for professional use, the ALL CARE™ range combines effective chemical technology with practical application to help businesses maintain hygiene standards, reduce contamination risks, protect equipment, and create safer working environments. Whether tackling heavy grease build-up, food residue, bacteria control, or daily maintenance cleaning, SA Polichem provides trusted solutions for every stage of the cleaning process.

Food Processing Facilities

High-performance cleaning and sanitising solutions developed for food manufacturing and processing environments where strict hygiene standards and contamination control are essential. Ideal for production lines, processing equipment, floors, walls, and sanitation stations.

Commercial Kitchens

Professional kitchen cleaning solutions formulated to remove grease, oils, food residue, and stubborn build-up from cooking equipment, preparation surfaces, dishwashing areas, and food contact environments while supporting daily hygiene compliance.

Hospitality & Catering

Reliable cleaning and hygiene products designed for restaurants, catering operations, hotels, canteens, and hospitality environments where cleanliness, presentation, and guest experience are critical to daily operations.

Abattoirs & Butcheries

Heavy-duty sanitation and disinfecting solutions developed for high-risk environments requiring effective cleaning, odour control, fat removal, and strict hygiene management across processing areas, equipment, floors, and cold room facilities.

Retail Food Environments

Effective hygiene and maintenance products suitable for supermarkets, delis, bakeries, fresh produce sections, and retail food preparation areas where cleanliness, food safety, and customer-facing presentation are essential.

Healthcare & Hygiene Facilities

Specialised cleaning, disinfecting, and sanitising solutions suitable for clinics, food industry, washrooms, public facilities, and hygiene-sensitive spaces where reliable bacterial control and surface sanitation are required daily.
